Md. Maruf Bin Salim Bhuiyan
Web-developer

Summary

I am a full-stack web-developer, with experience in using Javascript, Javascript based frontend (React, Next.js) and backend (Node.js) frameworks.

Outside of web-development, I have previously focused on problem solving and competitive programing.

Experience

Freelance Projects
Fiverr, Upwork
January 2020 to present

I have been implementing javascript based solutions for clients home & abroad and delivering web-based products and sites.

Problem solving

Previously, I have focused on competitive programing and am familiar with key concepts of problem solving.
